DETAILED ACTION

Allowable Subject Matter

Claims 1-13; 15-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: in regard to independent claim1, while the prior art of records disclose of an audio output apparatus comprising: an array speaker unit having a plurality of speaker; a measuring unit that measures levels of a plurality of input sound signals including a first sound signal for a first sound beam to be produced by the plurality of speaker units and a second sound signal for a second sound beam to be produced by the plurality of speaker units ; a sound level adjusting unit that adjusts gains based on the measured levels by the measuring unit so that the plurality of sound signals have equal magnitudes; a delay unit having a first delay circuit for each of the adjusted first sound signal and a second delay circuit for the second sound signal; a directivity control circuit that controls a delay setting for each of the first and second delay circuits based on a desired focal position of each of the first and second sound-wave beams to be directed to and a position of each of the plurality of speaker units, to emit the first sound beam from the plurality of speaker units in a first directivity and to emit the second sound beam from the plurality of speaker units in a second directivity different from the first directivity.

However, none of the prior art of records disclose of the specific wherein the directivity control circuit to emit the first sound beam from the plurality of speaker

units in a first directivity for one listener and to emit the second sound beam from the plurality of speaker units in a second directivity different from the first directivity for another listener, wherein the first sound signal is independent of the second sound signal so that the contents of the first sound signal for the first beam is different from contents of the second sound signal for the second beam.

Similarly, Claims 2-3; 15; 20 have been analyzed and allowed for their dependencies on the allowable claim 1.

The independent claims 4-7 have been analyzed and allowed for same reason as in claim 1.
